-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group 1, claim(s) 1-16, drawn to a method and device for authenticating a communication terminal having no authentication information based on authentication information stored in an authentication terminal.
- b. Group 2, claim(s) 17-23, drawn to a method and device for storing and converting correspondence information using an identifier.

Groups 1 and 2 do not have a unity of invention *a priori* for the following reasons:

2. Group 1 has the technical feature of authenticating a communication terminal having no authentication information by determining if authentication information in the authentication terminal coincides with the information in the storage device and transmitting the result to the communication terminal.
3. Group 2 has the technical feature of a storage device for storing correspondence information searched by a communication terminal identifier and an information

conversion module for converting inputted information from the communication terminal according to the correspondence information.

4. Therefore, Group 1 and Group 2 of the instant case do not have a unity of invention because they do not share a general inventive concept. While Group 2 relates to a storage device and conversion module that can be used for authenticating a communication terminal, it does not recite the feature of authenticating a communication terminal having no authentication information. Furthermore, while Group 1 relates to a method and device for authenticating a communication terminal having no authentication information, it does not recite using a storage device to store retrieved correspondence information and conversion module to convert input information.

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah Su whose telephone number is (571) 270-3835. The examiner can normally be reached on Monday through Friday 7:30AM-5:00PM EST..
